IBAN Number: GR13 011 084 000000 840 470 23795

Beneficiary name: Exposystem S.A.

CLARIFICATIONS

- ▶ The electric panel, the sockets and all luminaires need to be placed in the structure and cannot be removed. If you wish their placement at a specific point, you are kindly requested to provide us with a draft up to 30 days prior to the event.
- ▶ All electric circuits are connected to a distribution board and include a 300mA relay.
- ▶ Power supply (kw) is included in the luminaires' prices.
- ▶ Both the installation and the power connection of the exhibitor's luminaires can only be completed if the latter have a Schuko plug at their very end, are grounded and in good condition.
- ▶ The kw pricing is multiple of 0.5 kw.
- ▶ Power strips are not available.

AELECTRICAL CONTRACTOR DECLARATION FORM

Having accepted the terms and conditions mentioned on pages 18-19 of the "Services Guide", which refer to the preparation and installation of Pavilions' Special Constructions, I assign the duty of the safe operation and the monitoring of the electrical equipment of my exhibition stand to the licensed electrical installer and I submit -as an attachment- the relevant **Electrical Plan**.

Dimensions of each caret: 1.00mX1.00m

To confirm your order, you must send this form via e-mail: **meimaris@exposystem.gr** and settle your account no later than **20 days prior to the event**.

BANK DETAILS

NATIONAL BANK OF GREECE: SWIFT CODE ETHNGRAA

IBAN Number: GR13 011 084 000000 840 470 23795

Beneficiary name: Exposystem S.A.

You are kindly requested to design your exhibition stand and signify the exact spot of the distribution board as well as the requested volume and type of electrical power.

CLARIFICATIONS

- ▶ The Pavilions which require Special Constructions must include a Distribution Board with protective relays. If your own electrician cannot provide one, you can order it from EXPOSYSTEM.
- ▶ The type of the luminaires must be LED with power no more than 20W / m².
- ▶ A prerequisite for the electrification of your stand is the former submission of an Electrical Plan, stamped by an electrical engineer.
- ▶ Where appropriate, a panel appropriate for single-phase motors is available.
- ▶ All distribution boards include an external socket of 220V.
- ▶ The kw pricing is multiple of 0.5 kw.
- ▶ Power strips are not available.
- ▶ Exceeding the above will be dealt by interruption of the power supply.
- ▶ In case of loss or damage, the equipment must be immediately replaced and compensation -determined by our company- will be claimed.

ΕΠΙΣΗΜΑΝΣΕΙΣ CLARIFICATIONS

- ▶ TIF-HELEXPO checks all rigging plans in order to verify their implementation or make necessary amendments.
- ▶ EXPOSYSTEM retains the right not to fulfill exhibitors' requirements due to restrictions caused by the conditions of the roof above their Stand or due to security reasons. The company follows regulations determined by TIF-HELEXPO, which is responsible for approving all requests.
- ▶ Only EXPOSYSTEM and its certified - authorized partners are responsible for installing roof rigging points in all exhibition areas.
- ▶ All relevant services are offered after thorough study of various factors including exact location, weight and height of the rigging equipment.
- ▶ The request form concerning rigging services must be filed at EXPOSYSTEM no later than 30 days prior to the beginning of the exhibition's preparation works.
- ▶ This request form concerning rigging services must be accompanied by the Rigging Plan, which includes all required rigging equipment and details concerning the electrification system and the exact locations, weight, height, dimensions and descriptions of the materials used.
- ▶ The customers are fully responsible for any possible damages that may be caused by their inaccurate information giving or rigging services that have been offered by themselves, their employees or contractors. EXPOSYSTEM does not take any responsibility for roof rigging- or any other constructions made by the customers themselves.
- ▶ All former rigging services will be exclusively offered for the purposes of the exhibition reported in this request form and will be applied to the reported Stand positions and surfaces.
- ▶ **In case of lighting rigging services, the type of the luminaires should be Led with power no more than 20W / m2.**
- ▶ On the floor standing truss max height is 4,50m.
- ▶ The current measurements of each pillar must be added to the calculation of the total truss meter charge.
- ▶ Exceeding the above will be dealt by interruption of the power supply and dismantling of rigging.

To confirm your order, you must send this form via e-mail: meimaris@exposystem.gr and settle your account no later than **20 days prior to the event.**

Dimensions of each caret: 1.00mX1.00m

- ▶ Both the drainage and water supply services are available only if there is a well within the boundaries of the Pavilion. In any other case, the provision of these services may not be possible - even if a relevant order has already been placed.
- ▶ We highly recommend elevated structural floor, which creates a hidden void for the passage of drainage/water suppliers. We would really appreciate your informing us about the floor covering of your stand.
- ▶ The endpoints of all your devices should have the following characteristics: water supply: 1/2", 3/4", 3/8", drainage: 1 1/4" or $\phi 32$
- ▶ The Internet connection speed is at least 20Mbps through the HELEXPO network with static real IP. An Ethernet adapter card is required.

Exhibition/Event:

No of Pavilion/Stand:

Date:

From (Preparations Day):

Till (Decommissioning Day):

Acknowledging full responsibility and being aware of the legal sanctions, I do solemnly declare that:

1. All the information mentioned above is true.
2. In case of construction of a two-storey stand, I will submit a Static Study Plan.
3. I have completed my Stand's construction by my own means and its height does not exceed 3 meters.
4. I follow strictly all current regulations and legislation. All the necessary health and safety measures have been taken, in order to avoid accidents at my staff's or other third parties' expense and to prevent any damage.
5. I personally guarantee that my Stand's construction meets all the technical, safety and static requirements. Furthermore, I declare that I carry full responsibility -both criminal and civil- for (a) any possible bodily injury, (b) any labor or other accident and (c) any damage that may be caused to third parties or this construction, respectively.
6. I undertake the responsibility to remove all construction materials from the Pavilion, after the exhibition's closing -at the predetermined time specified by the organizers- .
